

Victoria Drago Committee Written Responses

1. I have been the Chair of the Policy Committee and the liaison for the Policy Committee; I have brought several initiatives to the Board that have resulted in changes for Mblex, Human Trafficking, and Strategic Planning.
2. Strengths can be on different levels and I know that I bring a sense of good reasoning, am a team player, and have experience in regulation with the Florida Board, ACICS, and COMTA which includes legislation initiatives, education, Human Trafficking and a cheerleader for the IMPACT. Public speaking is a strength that I thoroughly enjoy.
3. MBLEX is an issue for many reasons: Fraud, states creating their version of a test: The push to get the IMPACT has been difficult but I am positive we can bring it to fruition soon: Education standards and Human Trafficking.
